# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### **California Independent Systems Operators (Cal ISO) Stage 1 Alert, State of California**

On 5/03/17 at 1905 hours, Cal ISO issued a Grid Stage 1 System Emergency Notice due to the operating energy reserves either currently or forecast to be, less than the amounts required by the Western Electricity Coordinating Council.

- As of 1930 hours, the grid stabilized and no further action was warranted.
- At 2025 hours, Cal OES, Cal ISO, the California Energy Commission (CEC) and California Utilities Emergency Association (CUEA) convened for a conference call regarding future stage alerts and confirming the notification process for the upcoming summer months.
- The CSWC notified all duty officers of the Stage 1 alert and all confirmed receipt of the information.

### **Oroville Dam Auxiliary Spillway Incident**

On 04/29/17 at 1344 hours the Department of Water Resources (DWR) advised the California State Warning Center (CSWC) that they were decreasing the flow to manage Lake Oroville's water surface elevation and to safely close the Flood Control Spillway.

- Total flow to the Feather River was gradually decrease from 35,000 cfs to 8,000 cfs on 05/02/17 at 1500 hours.
- The Hyatt Powerplant outflow was increased from 0 cfs to 8,000 cfs.
- The Oroville Dam Flood Control Spillway flow will eventually be curtailed from 35,000 cfs to 0 cfs.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) as of 05/04/17 at 0600 hours:

- Inflow: 20,455 cfs.
- Outflow: 7,975 cfs.
- The current lake elevation is 838.92 feet.

### **Mission Tasking**

- 2017-SOC-33363: Road Repair (Butte County) – On Scene.
- 2017-SOC-34379: Caltrans engineer to visually inspect and conduct Impact-Echo Testing on the gated concrete spillway floor – On Scene.
- 2017-CalOES-34685: Asbestos Monitor (Butte County) – On Scene.

# **SITUATION SUMMARY**

## **2017 February Storms**

### **Cal OES Coastal Region**

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

### **Cal OES Inland Region**

#### **River Forecast - The following rivers are forecast to meet or exceed Flood stage:**

##### **Mariposa County:**

- Merced River at Yosemite at Pohono Bridge is forecast to be at or above flood stage at 11.0 feet the morning of 05/05/17.
  - Potential Impacts: Water tops the swinging bridge downstream from Chapel Meadow. Overflow from Woski Pond floods access road (Northside Drive) leading out of the west entrance of the park.

#### **River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:**

- Placer County: Truckee River at Truckee
- Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville
- Yolo County: Yolo Bypass at Lisbon
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto
- Merced County: Merced River at Stevinson

# WEATHER OF CONCERN

## Weather of Concern

- Very warm conditions are expected for the next couple of days, with highs well into the 80s for most lower elevations and 70s near the Sierra today. This additional heating could lead to isolated thunderstorms with gusty winds and lightning this afternoon, mainly between 1400 and 2000 hours.
- Snow melt throughout the Sierra Nevada is expected to continue due to increased temperatures. Therefore, flooding is possible in many locations as rivers exceed their capacity.
- A spring storm system will bring some winds, showers, isolated thunderstorms and mountain snow to Southern California Saturday night into Tuesday.

## **Active Weather Warnings, Watches and Advisories by County:**

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

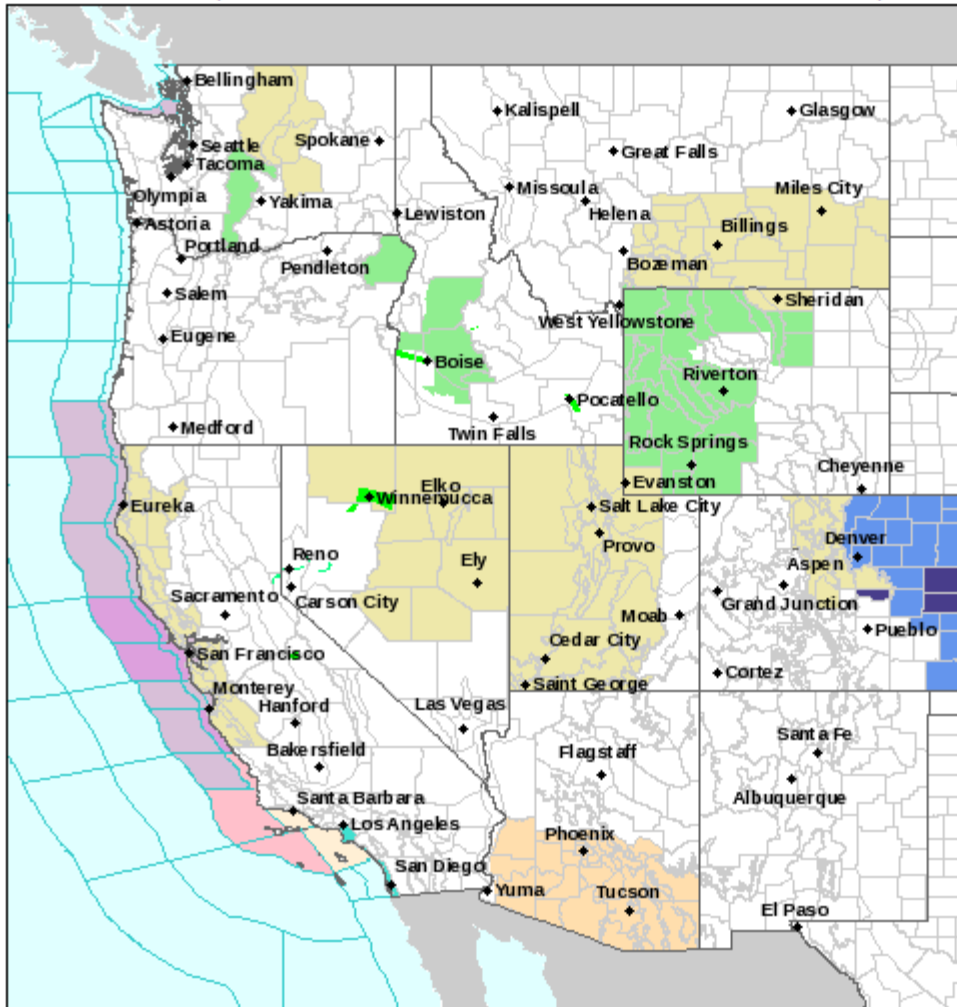

A low pressure trough approaches the coast today and moves ashore overnight. There will be a small chance of a few late afternoon and evening showers or thunderstorms over our northern and eastern mountains today into tomorrow. A closed low will likely form over the region out of the incoming trough Saturday night and drift slowly south Sunday and Monday. This will maintain a chance of showers and slight chance of isolated thunderstorms Sunday into Monday for our southern areas. After that, conditions become quite uncertain, but for now, higher pressure and dry conditions may be in place for a time Monday night into Tuesday. More showers could develop over the region later Tuesday. Yesterday was projected to be the hottest day of the week with the warmest inland areas in the low and mid 90s, or well above seasonal normals. Today it will be a little cooler, but significant cooling won't occur until tomorrow. Saturday should be the coolest day of the next 7 with the warmest inland areas right around 70, which will be noticeably below seasonal normals. Moderately strong, gusty southerly winds will develop this afternoon and continue into tomorrow before becoming more westerly late in the day. Moderately strong, gusty north winds will develop for the weekend in many areas, not just in the Sacramento Valley and surrounding foothill areas normally favored by such.

## **SOUTHERN CALIFORNIA**

Very warm and dry through today

A strong ridge of high pressure currently over California will cause temperatures to be 10 to 20 degrees above normal through today, with mid 70s to mid 80s across the mountains and upper 80s and 90s in the valleys. Minimum humidity will be mainly in the teens away from the coastal areas through today. South flow aloft will bring isolated afternoon showers and thunderstorms to the Sierra Crest today. A Pacific trough will drop down the West Coast bringing between 5 and 10 degrees of cooling and a 10% increase in humidity tomorrow. This trough will cut off from the main flow and form a deep area of low pressure over Central and Southern California Saturday. This low pressure area will sit and spin across the region bringing showers and thunderstorms Saturday afternoon through Monday night. At this time, it looks as though most of the Sierra and Southern California including the deserts will receive between a half inch and 2 inches of rainfall. The rest of Central California will receive less than a half inch of rainfall. The snow level will be between 5,000 and 6,000 feet. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas Friday afternoon through this weekend. Temperatures will become well below normal this weekend and early next week.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2017-LAW-35595, 5/2/2017, 1502 hours**, Sacramento County Sheriff's Office requesting two water Human Remains Detection (HRD) K9s to assist in searching the American River for a presumed drowned and missing 14 year old male. The requested resources are to meet at the Incident Command Post (ICP) for a 0800 hour briefing, 5/3/2017, located at the Negro Bar Recreation area near Folsom. Cal OES Law Enforcement Branch (LEB) coordinating the response. **Update:** At 1811 hours, two water HRD K9 teams committed to the mission. Cal OES LEB Region IV Assistant Chief will deploy to the ICP on 5/3/2017. **Mission Ongoing.**

# Cal OES MISSIONS

## Cal OES Missions

- **2016-IREOC-21748:** Tasking Caltrans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

# **Cal OES 2017 DROUGHT**

**The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.**

## **Current Local Emergency Proclamations:**

A total of **38** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 5 Counties: Fresno, Kings, Tulare, and Tuolumne, and San Joaquin
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County) City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County)
- 11 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County), Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Tuolumne Band of Me-Wuk Indians (Tuolumne County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County)
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County)

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
